Playlist Creator For Creative ZEN Crack

Playlist Creator for Creative ZEN is an easy-to-use application that can automatically create music playlists for your Creative ZEN. It works by searching through all the music on your device and creating playlists based on the folder structure it finds. If you have a folder called "Rock Music" then a playlist with the same name will be created containing all the music in that particular folder. Playlist Creator for Creative ZEN is also capable of automatically transferring new music folders to your device. Once installed you can right click any music folder on your computer and then click "Create Playlist." and your music will be automatically transferred to your device along with a new playlist file. From inside the app, you can manually browse the folders or let it automatically search them. Also, in case your music is separated in sub-folders, like "Rock," "Jazz" etc., the app will create separate playlists to avoid mixing up the music of different genres. If you're the type that doesn't mind mixing music genres and think that everything you like works well together, you can just press the "All Music" to create a playlist of all the music on your ZEN device.
