The following example illustrates why the number of unbound cables should be the same for every link. For example, for the A, the number of unbound cables should be on the B and B's ports, the number of cables on the C's ports and the number of cables on the D's port should be the same. The link between the D and. C

360 Manual' />Usbxtaf v3.

How to set up a flash
drive. If you want to use a
flash drive for data
transfer, it must be
formatted in FAT format.
Before you can use a USB

drive with your Xbox 360, you must plug it in and format it. With this utility you will be able to format your device to FAT format and format it as a virtual disk in NTFS. dd2bc28256
